

**1st Intercontinental
Personal Care
Excellence Conference**

**18-20 June
2017**

SKIN CARE • MAKE-UP • SUN CARE

The Italian and US/Canadian Societies of Cosmetic Chemists, with the endorsement of the Japanese Society, will come together on the beautiful Lake Maggiore in Stresa, Italy, to open a wide window on the Cosmetic Science & Technology World!

From June 18-20, 2017 at the Stresa Convention Centre International, scientists will showcase their cutting-edge research on three main personal care disciplines: Make-up, Skin Care and Sun Care.

A focused *"windows on the world"* exhibition will run along the Conference sessions, highlighting the latest technologies from the world's leading Cosmetic Companies.

Two main courses will be at the center of this event, with the aim of training attendees on emerging scientific disciplines of interest to Cosmetologists

1. Epigenetic
2. Skin Microbiome

A Round Table on the Regulatory differences between Europe and the United States, will complete the program; with participation from both the European Commission (EC) and FDA Regulatory Offices.

The enchanting atmosphere of June on Lake Maggiore will make this a unique and unforgettable experience!

Be there for this first ever Society crossover event!

Program at a glance
