LitePlatform™ – Performance Proteins Powered Through Biotech

Xias Bio Limited

www.xiasbio.com

PRODUCT/SERVICE BACKGROUND INFORMATION

Xias Bio's LitePlatform™ creates bespoke, multi-functional protein and peptide actives. We assist clients through:

Discovery – Using *in silico* data mining we fast track new peptide discovery, shortlisting functional motifs that deliver on required performance claims. These can be validated via the LiteArray™, an *in vitro* screening platform for hair or skin.

Development – Design of bespoke proteins or peptides using the LitePlatform™, produced through biofermentation.

Evaluation – We have produced a range of high-performing and sustainably-made LiteProteins™ ready for client testing.

WHAT IS THE COMPANY INTRODUCING TO THE MARKET/INDUSTRY?

Xias Bio offers cost effective and bespoke biotech-sourced active ingredients, backed by rigorous science, fast!

Xias' LitePlatform™ unlocks biotech and precision fermentation to create truly innovative actives rapidly. No strain engineering required and immediate high-production yields for your custom biotech ingredient.

HOW WILL THIS NEW PRODUCT/SERVICE IMPACT THE INDUSTRY (BENEFITS)?

Xias Bio are innovation partners, giving brands and manufacturers a route to bringing exclusive, next-generation performance ingredients to the market rapidly, under flexible licensing.
