Ken's Korner

Autumn is absolutely my favorite time of year, and not just because of the change in the weather and the start of the NFL season. It's always been a time for reunions and new beginnings. Kids are heading back to face the challenges of a new school year and to get reacquainted with friends they haven't seen since the Spring. We get to reunite with our favorite TV shows and resolve those annoying cliffhangers from the end of last season, as well as to see what new shows have to offer.

In this same vein, we assemble once more as a chapter to begin a new season, to reestablish our bonds of fellowship and continue in our quest to educate ourselves and others. We've made a phenomenal start along this path with the completion of our latest technical symposium, which featured our very own Dr. Randy Wickett from UC. His lecture on Instrumental Methods for Measuring Skin and Hair was the best attended event ever put on by our chapter, with over 80 people attending and 6 additional people buying the course notebook! It was the perfect way to kick off the new season for our chapter.

On the heels of that great success, we have a couple of our annual chapter events fast approaching to keep the momentum building. Our annual golf outing to raise money to support our educational programs will be held on **October 7th** at the Twin Oaks Golf and Plantation Club in Northern KY. We have several sponsors who are in need of golfers to complete their four-person teams, so contact Julie Moser or Eric Abrutyn if you'd like to play. Additional details can be found on the website at www.ovscc.org.

The first chapter meeting of this young season follows on **October 8th** at the Hofbrauhaus at Newport on the Levee and will feature our traditional Student Night presentations. We have also set up a tour of the beer-making facilities during our cocktail hour that evening for those who are interested in learning more about the process.

Coming up on **November 19th**, we will be having our Fall symposium, which will feature talks by technology experts from adjacent industries like Paints, Adhesives, Food & Beverage and more to stimulate your creative juices and promote cross-fertilization. That same evening, we will have our regular chapter meeting featuring our own Eric Abrutyn talking about the product development lifecycle, as well as the installation of our officers for 2009. Outgoing National SCC President Linda Rhein will be on hand to witness the ascension of Brandon Lane to the throne and the ceremonial passing of the sword to his successor.

I'd also like to remind everyone that the first notice of renewal of your SCC dues has been sent out and that we are in a contest with the other chapters. The top three chapters with the highest percentage of renewals received by December 31st will get a monetary reward. The St. Louis chapter has been gloating that they have won this contest since its inception and have challenged everyone else to beat them. Also, our own Dr. Randy Wickett is running for Vice-President Elect of the SCC against someone from the New York chapter, so I encourage everyone in our small but mighty OVSCC to vote early and often for Randy. I look forward to renewing my friendships with all of you this Fall at any and all of our events!

Ken Kyte
