OVSCC MEETING – April 23rd, 2014

Firehouse Grill – 4785 E. Lake Forest Drive, Cincinnati, OH 45242

Speaker: Randall Wickett, PhD

Emeritus Professor of Pharmaceutics & Cosmetic Science – UC

Topic: “Reflection on 40 years of Skin Science; Where we have been, where are we now, and where we are going”

Our knowledge of the skin has improved dramatically since I joined Procter and Gamble to carry out skin research 40 years ago. In my opinion progress has been most dramatic in two areas; understanding of the nature of the stratum corneum (SC) barrier and evolution of methods for non-invasive measurement of skin function. This talk will briefly review progress in both fields and discuss some of the key academic and industry players responsible for that progress.

We have gone from considering the SC to be a “plastic wrap” of dead cells, to understanding the dynamic nature of the SC, including metabolic events that occur as the barrier is formed and maintained. Forty years ago we couldn’t even image the intracellular lipids of the SC and didn’t really know they existed. Now we debate details of their structure, formation and role in such conditions as ichthyosis and atopic dermatitis. Similar progress has been made in understanding the role of filaggrin, another molecule that was not known 40 years ago.

The first meeting of the group that is now the International Society for Biophysics and Imagine of the Skin took place in 1976. At that time most instruments for non-invasive measurement of skin function were “home-built”, leading to many arguments about proper interpretation of the data. Now we have bewildering array of commercial instruments. Naturally we still argue about data interpretation.

While it is hard to predict where we will go in the next 40 years, I can at least speculate on the next few years based on current trends in skin research.

Social – 5-6

Dinner – 6-7

Meeting – 7-8

Key Lime Pie

Soft Drinks & Coffee Included

Cash Bar

NOTES FROM THE CHAIR

Spring has officially sprung, but it seems like Mother Nature did not get the memo.

The only saving grace is NCAA March Madness Tournament and looking forward to the start of the baseball season.

I am sure that you, as well as the rest of our members, are tired of this winter-like weather, and would like to get out and enjoy some good company, an adult beverage and a good meal.

I would like to invite all of our members to attend our April 23rd meeting. Our guest speaker will be our own Dr. Randy Wickett. As most of you know Randy has a vast scope of knowledge, as it relates to the Personal Care Industry, and his presentations are always very interesting and informative.

As an additional bonus, there will be several different prizes that will be raffled off. The only thing that is required is that you have to be present at the April meeting to participate.

So leave your winter blues at the door and enjoy the meeting!
See you all at the meeting!

Speaker Bio: R. Randall Wickett, Ph.D.

Emeritus Professor of Pharmaceutics and Cosmetic Science
The James L. Winkle College of Pharmacy
University of Cincinnati

Dr. Wickett obtained his Ph.D. in Biophysics from Oregon State University in 1973 and was a Post-Doctoral Fellow at the University of Minnesota from 1972 to 1974. He worked at Procter and Gamble's Miami Valley Laboratories in Cincinnati Ohio from 1974 to 1985, and the SC Johnson Company from 1985 to 1991, performing clinical and biophysical research for skin and hair care products. In 1991 he joined the University of Cincinnati and is now Emeritus Professor of Pharmaceutics and Cosmetic Science in the James L. Winkle College of Pharmacy. Dr. Wickett has received numerous technical awards from the SCC, including the Maison G. de Navarre Medal Award, the SCC's highest honor for technical achievement. He was editor of the Journal of the Society of Cosmetic Chemists from 1991 to 1997, chairman of the International Society for Bioengineering and the Skin from 2000-2005, and President of the SCC in 2011.

SOCIETY OF COSMETIC CHEMISTS

CALL FOR PAPERS – PODIUM PRESENTATIONS

ANNUAL SCIENTIFIC MEETING & TECHNOLOGY SHOWCASE

DECEMBER 11-12, 2014

NEW YORK HILTON HOTEL, NEW YORK CITY

Authors are invited to submit titles and abstracts of no more than 150 words for original papers to be presented in podium format. All topics related to cosmetic science will be considered for presentation. Topics of particular interest for submission of abstracts are:

- Color Cosmetics (Formulation and Performance for Skin)
- Fragrances in the Cosmetic Industry (Fine Fragrances, Regulations, Fragrancing Personal Care Products)
- Basics of Cosmetic Formulations (Emulsion & Surfactant Chemistry)
- Topical Delivery Systems (Liposomes, Encapsulations, Micro-emulsions, Devices)
- Current Regulations affecting the Cosmetic Industry (US Regulations, OTC Products, cGMPs)
- Online Formulating and Research Tools for the Cosmetic Chemist (Social Media, Computer Apps, Websites, Databases)
- Emerging Trends and Innovations in the Cosmetic Industry

SUBMISSION DEADLINE: MAY 2, 2014

All abstracts must be submitted online at our website www.sconline.org.

After acceptance of abstracts by the Committee, all presenters will be required to submit preprints 12 weeks prior to presentation (minimum of 600 words, maximum of 2 pages, including figures). All presenters will be eligible for the Shaw Mudge Award sponsored by BASF Corporation, which is given for the Best Paper presented at the Society's Annual Meeting. The honorarium for this award is \$2,500.

Presenters are required to register for the Meeting.

NYSCC : COSMETICS IN CONTEMPORARY BRAZIL

May 12, 2014 – 8:00am to 5:15pm

Description

A member of the rising economic powers, otherwise known as the BRIC nations and a significant emerging market, Brazil is Latin America's largest economy and the fifth largest country in the world with a population estimated to be about 200 million. Demographically, Brazil is one of the most ethnically diverse countries and a major consumer of personal care products and fragrances. Brazil's biological diversity is the largest in the world. It is blessed with abundant raw materials which can have use in personal care.

As more companies are embracing globalization to reach new customers in new markets, a greater understanding of consumer preferences, important product types, and regulatory issues in this vast and growing market is essential.

The NYSCC, in conjunction with its world renowned Suppliers Day event, has assembled a program of experts to further explore this land of immense opportunities.

SOCIETY OF COSMETIC CHEMISTS CALL FOR PARTICIPATION 2014 TECHNOLOGY SHOWCASE

In conjunction with the Annual Scientific Meeting

December 11, 2014 10:00 a.m. - 5:00 p.m.

December 12, 2014 9:00 a.m. - 3:00 p.m.

The New York Hilton & Towers Hotel, New York City

THE TECHNOLOGY SHOWCASE RUNS FOR TWO DAYS

Our members have a continual need to maintain their current awareness of new materials, emerging technologies, innovative services, and state-of-the-art equipment in their pursuit of developing tomorrow's cosmetic and OTC products. The "Technology Showcase" was begun to provide a forum for the chemists and scientists of suppliers and contract laboratories serving the personal care industry to present their most recent developments in a poster format. This "Showcase" combines the details of a scientific poster session with the pragmatic directness of a commercial exhibit (trade names, demonstration prototypes, and supportive literature presented). This venue as a part of the Society's Annual Scientific Meeting enables it to be an effective information medium for cosmetic scientists. Participants are invited to present their information in a poster format (4' x 8') to include experimental data, graphs, illustrations/photos, and prototypes on the technical attributes of the featured product or technology. Complete trade names as well as the INCI nomenclature is requested for ingredients. Companies wishing to participate are to submit an abstract of approximately 150-200 words of their intended presentation to the Committee on Scientific Affairs (COSA) on or before September 15, 2014. Abstract Cover Sheets can be printed from our website www.scconline.org. The abstract and cover sheet should be emailed to alynch@scconline.org. Abstracts must be in a Word Document format only. Abstracts will be reviewed on a "first come-first served" basis as the "Technology Showcase" is limited to the number of posters allowed. There is a flat fee is \$1,200.00 per poster. The fee does not include any Meeting Registrations per poster. Company representatives will be required to register for the Annual Meeting. Notification of acceptance will be made by October 20, 2014 and payment must be made in full by November 26, 2014.
