SCC's Strategic Plan 2020-2023

Our Mission:

The Society strives to increase and disseminate scientific information through meetings and publications. By promoting research in cosmetic science and industry, and by setting high ethical, professional and educational standards, we improve the qualifications and caliber of cosmetic scientists.

Our Purpose:

The SCC advances cosmetic science through education and enabling meaningful dialogue and peer connections.

Member Engagement

The SCC advances cosmetic science through education and enabling meaningful dialogue and peer connections.

Outreach & Awareness

To position the SCC as the recognized authority in cosmetic science through partnerships, communication and collaboration.

Chapter Value

To improve the connectivity of our chapters to national, to each other and to their local communities by providing tools, best practices and resources.

Infrastructure

To ensure the growth and vitality of the SCC through the improvement of administrative and operational functions.
