

Preserving Microbial Diversity in Healthy Skin While Supporting Prebiotic Activity

Jover Scientech SL

www.joverscientech.com

PRODUCT/SERVICE BACKGROUND INFORMATION

At Jover Scientech our purpose is to improve people's well-being in a natural and sustainable way. We specialize in the development and production of advanced preservative systems, emulsifiers and emollients. For over 30 years, we have been developing the business in the worldwide cosmetic market with our expertise, high know-how and advanced R&D infrastructure.

WHAT IS THE COMPANY INTRODUCING TO THE MARKET/INDUSTRY?

Easy to formulate in virtually any cosmetic application, Jover's smart antimicrobial systems enable the development of sustainable formulations with multifunctional ingredients that combine complete preservation performance with clinically proven microbiome-friendly and prebiotic benefits. Jover's latest innovations provide selective microbiome modulation beyond preservation: preserving microbial diversity in healthy skin and supporting prebiotic activity in dry and atopic-prone skin.

HOW WILL THIS NEW PRODUCT/SERVICE IMPACT THE INDUSTRY (BENEFITS)?

Discover how Vercatech Pentyforce G and Vercatech Capryforce ECO go beyond preservation. Their selective antimicrobial performance helps maintain microbiome diversity in healthy skin while delivering a prebiotic-like effect in dry and atopic-prone skin. In addition, they strengthen the skin barrier, improve hydration, and provide effective stand-alone protection against microbial contamination in cosmetic formulations.
